These changes are the result of the following product enhancement:

New case mounting design.

This addendum applies to Part 2 Hardware in your iServer Operator’s Manual.

**HARDWARE**

2.1 Mounting

2.1.1 Mounting the Wall Mount iServer

Position unit where required. Mark and drill the two #6 screw holes.

After bracket is mounted on the wall, align back of unit over the three bracket clips, once engaged, slide downward, the unit will snap in place.

![Figure 2.1 Mounting - Wall Mount iServer](image)

- **Bracket Clips (3)**
- **Drill 0.14 [3.6] (2 plcs)**
- **Use #6 Screws (Provided) to Mount the Bracket**

It is recommended that you ground your unit. With one end of a wire connected to earth ground, the other side can be wrapped around the ground screw, located on the bottom of the case.

If unit is to be mounted on a flat surface, you may take the bottom rubber feet off the unit.
