SERVING INDUSTRIAL, MEDICAL, UNIVERSITY, GOVERNMENT AND PRIVATE LABORATORIES SINCE 1971

New meters and controllers have embedded WWW server

Manufacturer offers a selection of Web-enabled controllers, panel meters, transmitters and signal conditioners. Each stand-alone unit functions without special software, because the Web server capability is embedded in the device. Thus, these devices make it possible to control a process through a Web browser from anywhere in the world via the Internet. *Newport Electronics, Inc.*
